

To all Bidders
At your disposals

Subject: Giving response to clarification requested with amendment-1.

Reference: Design Review, Supply, Installation, Testing, and Commissioning of Electro Mechanical Equipment for Guradhamole Multi-Village Water Supply and Sanitation Project with BID NO: ET-MOWE-432171-GO-RFB.

Dear Bidders,

Reference has been made to the assignment advertised in the Ethiopian Herald with the procurement name and reference number above motion.

Due to certain specification and others terms/conditions overlooked during the preparation of the bid issued, we have amended the master bid document in incorporating the missed section of the approved technical specification of the bid document for your further due attention and consideration while preparing your technical and financial proposals.

Therefore, please ensure that your competitive bid documents are prepared in accordance with the full bid document including the response given to your requested clarification. It is essential that all sections of your bid document reflect these changes to maintain compliance and competitiveness.

All other terms and conditions outlined in the original bid document remain unchanged and must be adhered to.

Regards!

Amassador Asfaw Dingamo (Ph.D)
State Minister

S/N	Clarification requested	Response given to the clarification requested
	In the table of contents of part-2-Works Requirements, several sections are listed to be include this part. However, the topics listed under section VII-Work requirements after are not present serial number 2.25, "standby power generator plant" are not present in the document. Thus, kindly provide the documents, such as technical specification, Mechanical particular specification, raw water and clear water pump stations and treatment plant particular electrical requirements and others.	<p>In the Table of Contents of Part 2-Works Requirements, several sections are listed to be included under this part. However, upon reviewing Section VII-Works Requirements, we have noted that the content following Serial Number 2.25, titled "Standby Power Generator Plant," is missing from the bidding document posted on the ministry website page.</p> <p>This includes the technical specifications, mechanical particular specifications, and the particular and General electrical requirements for the raw water and clear water pump stations, as well as the treatment plant. Therefore, the missed technical specification are attached to the ministry website with the title "missed parts of the technical specification" in considering it as first amendment. However, the word format of the technical specification having the missed page is already uploaded on ministry website page. The missed page is only in the scanned document and for legality and bidding</p> <p>Please refer to the Master Bid Document (PDF scanned format), starting from page 217, or under Section VII – Works Requirements, page 89, which pertains to the Standby Power Generator Plant. We have noted that the section following Serial Number 2.25 appears to be missing. Accordingly, please find the attached document for your clarification.</p>
	We kindly request a word version of the technical documents in MS word format as converting the scanned file to an editable format has proven to be quite challenging.	The technical specification in word format is uploaded in full as requested, but the official one is the one having the seal of the ministry. Therefore you can downloaded from the web page: https://www.mowe.gov.et/en/
	In addition, as this is a quite elaborate and not a small tender, we are concerned about the time in our hands and the closing date. Additional time will enable us to prepare a more comprehensive and competitive bid document. We believe this extension will benefit all bidders, ensuring a higher standard of proposal. Therefore, considering the fact mentioned above we kindly request you to give us 30 days' time extension so as to submit a technically viable and financially competitive bid, by taking into consideration the work needed to prepare a sound bidding document.	<p>Even though the time given is enough to prepare a comprehensive and competitive bid document. Due to time extension and clarification are requested by bidders, the bid submission deadline date is extended by 15 days. Therefore;</p> <p>Original Bid Closing: Date- April 29, 2025 Time 10:00 AM</p> <p>Original Bid Opening: Date- April 29, 2025 Time 10:30 AM</p> <p>Amended Bid Closing: Date- May 14, 2025 Time 10:00 AM</p> <p>Amended Opening Date- May 14, 2025 Time 10:30 AM</p>

	<p>We are writing this letter to confirm a discrepancy between the BOQ, which specifies a maximum pump and motor length for the multi-stage vertical inline shaft pumps should not exceed 2000mm, and the drawing, which shows a pump length of 6000mm.</p> <p>We kindly request clarification on this matter to ensure alignment and avoid any potential misunderstanding during implementation</p>	<p>For the clean water and booster pumping station, as shown in the drawing, the electric submersible pump is installed vertically within a casing with a total length of 6 meters Casing. Of this, 3 meters are submerged below the Original Ground Level (OGL), while the remaining length extends above the surface. The above-surface portion must be equal to or greater than the wet well overflow level. The casing's inlet is located at the bottom. Accordingly, the drawing includes the following details: the OGL elevation, the minimum and maximum water levels in the booster reservoir, and the pump's position.</p>
	<p>After reviewing your bid documents, we kindly request clarification on the following points:</p> <ol style="list-style-type: none"> 1. Can you please send us the technical specifications for the Bridge (traveling) crane and Monorail crane? 2. Can you please send us the detailed technical specifications for the laboratory equipment? 3. Can you please provide the technical specifications and length of cable, as the cable length and diameter are not specified in the BOQ 	<p>It is available on the section following Serial Number 2.25 appears to be missing. Accordingly, please find the attached document for your clarification</p> <p>It is available on the section following Serial Number 2.25 appears to be missing. Accordingly, please find the attached document for your clarification.</p> <p>The technical specification it is available on the section following Serial Number 2.25 appears to be missing. Accordingly, please find the attached document for your clarification. As the scope of work for this bid involves the Design Review, Supply, and Installation of Electro-Mechanical Equipment for the Guradhamole Multi-Village Water Supply Project, the final cable length will be determined by the contractor during project execution. However, for the purposes of the bidding process, all cable lengths should be considered as 50 meters.</p>
